OTHER ANNOUNCEMENTS

Submissions regarding ways and means of limiting emissions of hydrofluorocarbons and perfluorocarbons

The Conference of the Parties, by its decision 13/CP.4, invited Parties, the relevant bodies of the Montreal Protocol, the IPCC, intergovernmental organizations and non-governmental organizations to provide information to the UNFCCC secretariat, by 15 July 1999, on available and potential ways and means of limiting emissions of hydrofluorocarbons (HFCs) and perfluorocarbons (PFCs), including their use as replacements for ozone-depleting substances.

Information may be submitted electronically using an on-line form at the UNFCCC Web site (<http://www.unfccc.de/program/wam/>) on technological options as well as policies and measures, which reduce, replace, recover or avoid HFCs, PFCs and sulphur hexafluoride (SF₆). Although SF₆ is not specifically mentioned in the mandate, organizations are urged to provide information on this gas also, as HFCs, PFCs and SF₆ are generally treated together in the context of climate change.

For additional information, please refer to the UNFCCC Web site, or contact Niklas Höhne in Salon Arndt or at nhohne@unfccc.de.
