*Recalling also* its decisions on initial communications from Parties not included in Annex I to the Convention (non-Annex I Parties), in particular decisions 10/CP.2, 11/CP.2, and 12/CP.4,

*Noting* that, pursuant to decision 10/CP.2, the national and regional development priorities, objectives and circumstances of non-Annex I Parties should, in accordance with Article 4.1 of the Convention and provisions of Article 3 and Article 4.3, 4.4, 4.5, 4.7, 4.8, 4.9 and 4.10 of the Convention, be taken into account by the Conference of the Parties in considering matters related to their initial communications,

*Noting* that, from its first session onward, in accordance with Article 12.7 of the Convention, the Conference of the Parties has arranged for the provision to developing country Parties of both technical and financial support, on request, in compiling and communicating information under that Article, as well as in identifying the technical and financial needs associated with proposed projects and response measures under Article 4 of the Convention,

*Having considered* the first compilation and synthesis of initial communications from Parties not included in Annex I to the Convention,<sup>1</sup> prepared by the secretariat pursuant to decision 12/CP.4,

*Having considered* the relevant recommendations of the Subsidiary Body for Implementation,

resources in accordance with Article 4.3 of the Convention, to do so as soon as possible, it being understood that Parties that are least developed countries may make their initial communications at their discretion;

2. *Requests* the Convention secretariat:

(a) To prepare the second compilation and synthesis of initial national communications from Parties not included in Annex I to the Convention (non-Annex I Parties), based on submissions received from such Parties by 1 June 2000, and to make that report available to the subsidiary bodies with a view to its consideration by the Conference of the Parties at its sixth session;

(b) In preparing that compilation and synthesis, to report on problems encountered in using the guidelines for the preparation of initial national communications by non-Annex I Parties, and on other issues raised by non-Annex I Parties, with a view, among other things, to enhancing further the comparability and focus of the communications;

(b) Non-Annex I Parties are generally following the UNFCCC guidelines with a varied level of detail across the different communications;

4. *Concludes* that, in view of the problems encountered in the preparation of initial national communications, namely difficulties relating to the quality and availability of data, emission factors and methodologies for the integrated assessment of the effects of climate change and impacts of response measures, there is a need for maintaining and enhancing national capacities in non-Annex I Parties for the preparation of national communications;

5. *Concludes* that, although limitations have been encountered, the current guidelines facilitate reporting by Parties; that Parties have found ways to overcome these problems by providing additional information, particularly in relation to greenhouse gas inventories; and that further analysis of the problems in the use of the guidelines will be required when additional national communications are submitted;

6. *Concludes*, with respect to the implementation of the Convention by non-Annex I Parties, that, as described in the first compilation and synthesis of initial communications from Parties not included in Annex I to the Convention,<sup>2</sup> the reporting Parties are taking measures to address climate change and its adverse impacts.

*Emphasizing further* that an integrated approach should recognize the responsibility of individual Parties to promote conditions that are conducive to the development of human, institutional and technical capacity, and that every effort should be made to improve the coordination and effectiveness of existing efforts and promote participation of a wide range of actors and constituencies, including governments at all levels, international organizations, civil society and the private sector,

*Emphasizing also* the importance of creating an enabling environment for investment, which promotes capacity-building activities in developing countries,

*Noting* that capacity-building activities are conducted by United Nations agencies, international organizations and bilateral and multilateral institutions, including the Global Environment Facility as an operating entity of the financial mechanism,

(d) UNFCCC national focal points or national authorities designated to handle climate change in developing countries should play a key role in the assessment referred to in paragraph 1(c) above and urges Parties included in Annex II to the Convention (Annex II Parties), the secretariat, the Global Environment Facility (GEF) and relevant international organizations to assist in strengthening them for this purpose;

(e) The assessment should consider, *inter alia*, the following ways and means for capacity-building:

- (i) Strengthening the UNFCCC national focal points or national authorities designated to handle climate change;
- (ii) Building expertise and strengthening institutions, including collaborating centres, in developing countries which can undertake capacity-building activities at the national, subregional and regional levels, so as to enable them to collect, analyse and provide information on climate change relevant to policy- and decision-making, using state-of-the-art information technology;
- (iii) Supporting the networking of these institutions among themselves, and between them and relevant institutions in developed country Parties;
- (iv) Using, as appropriate, national experts or consultants to undertake studies and to design, and implement projects at the national level;

3. *Requests* Annex II Parties to supplement the information contained in their national communications on activities and programmes which facilitate capacity-building in developing countries in the area of climate change, by 1 March 2000;

4. *Invites* relevant intergovernmental organizations to provide the secretariat with information on their ongoing capacity-building activities by 1 March 2000;

5. *Requests* the secretariat:

(a) To compile information contained in initial national communications from non-Annex I Parties relating to capacity-building activities, programmes and needs, and to make it available in both printed and electronic formats prior to the twelfth sessions of the subsidiary bodies;

(b) To compile information contained in national communications of Annex II Parties on activities and programmes implemented to facilitate capacity-building in developing countries relevant to the implementation of the Convention, as well as the information referred to in paragraphs 2, 3 and 4 above, and to make it available in both printed and electronic formats prior to the twelfth sessions of the subsidiary bodies;

(c) To further elaborate the specific capacity-building needs and priorities of non-Annex I Parties, taking fully into account the list provided by those Parties and contained in the annex to this decision, and the results of the inter-sessional workshops, including workshops on the consultative process for technology transfer, held prior to the twelfth sessions of the subsidiary bodies;

(d) To develop in accordance with this decision, in close consultation with Parties at the twelfth sessions of the subsidiary bodies, and based on the information compiled and synthesized, elements of a draft framework for capacity-building activities, including elements related to capacity-building emerging from discussions of other issues under the Convention and its Kyoto Protocol, for consideration by the subsidiary bodies at their thirteenth sessions;

(e) To coordinate closely with, and seek the assistance of, the GEF, as an operating entity of the financial mechanism, and the secretariats of relevant United Nations agencies and international organizations, and bilateral and multilateral institutions, in preparing the elements of the draft framework referred to in subparagraph (d) above; to continue to coordinate with these agencies, organizations and institutions regarding their climate change capacity-building activities in support of the implementation of the Convention and its Kyoto Protocol; and in reporting on this coordination, to include information on the financing of these activities, at regular intervals;

3. Proposals to delete the name of Turkey from the lists in Annexes I and II to the Convention

At the 10<sup>th</sup> plenary meeting, on 5 November, the Conference of the Parties took note of the efforts of Turkey to advance the implementation of the objective of the Convention even at a time when it was not a Party. The Conference of the Parties was encouraged, in particular, by the efforts made by Turkey to implement policies and measures that could lead to a meaningful limitation of greenhouse gas emissions in comparison with a business-as-usual scenario.

In recognition of the efforts made by Turkey, the Conference of the Parties requested the President to intensify his search for a satisfactory solution and decided to consider the matter again at its sixth session under an item entitled "Review of information and possible decisions under Article 4, paragraph 2 (f), of the Convention".
