**List of speakers for the high-level segment attended by ministers and other heads of delegation**

Below is the list of Parties that wish to deliver a policy statement under agenda item 12 (a) at the high-level segment which will taken up on Wednesday, 7 November 2001.

Delegates are reminded that statements during the high-level segment should not exceed the three- to four-minute limit, as decided by the Conference of the Parties at its first plenary meeting. Parties are encouraged to consider consolidating individual statements into one statement made on behalf of a group of Parties, in which case a time limit of five minutes will apply. Given the large number of statements, it is suggested that statements be as brief and concise as possible, with full texts available for distribution (see below for the quantities required). If Parties do not wish to speak but would prefer to have their statements circulated, the secretariat will make arrangements to distribute the copies and enter the statement in the records of the Conference.

Any changes in the name and rank of the speaker previously communicated to the secretariat should be provided as early as possible to the External Relations team, located in Espace Agdal, so that the speaker's list can be corrected accordingly. Parties are kindly requested to note that the secretariat is not in a position to accommodate individual requests for changes in a Party's speaking slot. Parties wishing to make a change should arrange to exchange slots with another Party, and jointly notify the secretariat of the agreement that has been reached.

*All Parties are also kindly requested to provide the Conference Officer with 20 copies of their statements in advance to meet the needs of the interpreters and the Conference records. Parties wishing to have their statements distributed during the plenary meeting are requested to provide 300 copies. These copies may be delivered to the Conference Officer's table.*

*The full list of speakers (with names and titles), as well as further information concerning the approximate timing of the statements, will be published in the Daily Programme for Tuesday, 6 November 2001.*
