I. INTRODUCTION

A. Mandate

1. At the twelfth sessions of the subsidiary bodies, the Joint Working Group on Compliance (JWG) requested the co-chairmen, with the assistance of the secretariat, to further develop the text on procedures and mechanisms relating to a compliance system under the Kyoto Protocol contained in the annex to the report of the JWG,¹ to serve as the basis for negotiation, along with inputs from Parties, at the thirteenth sessions of the subsidiary bodies.

B. Scope of the note

2. In order to fulfil their mandate, the co-chairmen held informal consultations. The text on compliance contained in this note is based on those consultations, as well as on the outcome of the work of the JWG at the twelfth sessions of the subsidiary bodies. The text reflects ongoing development of views in areas such as objectives, functions, structures and procedures.

3. In the text, the reference to “Compliance [...]” denotes the fact that there are various proposals as to the title of the compliance body or bodies that may be established, as Parties are yet to agree on this matter.

4. Efforts have been made to streamline procedural arrangements relating to facilitation or branch 1 and enforcement or branch 2. It was suggested that these procedural arrangements, as well as the procedure relating to Articles 6, 12 and 17, be located under the heading “Proceedings” in section III. As views of Parties continue to evolve on this issue, further discussion is needed on how these procedures would be integrated into the main body of the text. For the moment, they have been placed as attachments to the text. These attachments should be considered together with the text under “Proceedings” in section III.

5. It was proposed that, in accordance with Article 16 of the Protocol, the multilateral consultative process (MCP) referred to in Article 13 of the Convention, modified as appropriate, should be designated to address certain questions of implementation under the Protocol. As requested by Parties, the text of the MCP is contained in the annex for reference purposes.

C. Possible action by the Joint Working Group

6. Parties are invited to use the text presented in this note as the basis of their negotiations at the thirteenth sessions of the subsidiary bodies. The JWG may wish to request the co-chairmen to further develop the text on compliance for consideration during the resumed thirteenth sessions of the subsidiary bodies, with a view to completing its work in accordance with decisions 8/CP.4 and 15/CP.5.

Nature

Option 1

The [procedures and mechanisms relating to compliance] [compliance system] shall be credible, fair, coherent, comprehensive, unified, effective, predictable, transparent and simple.

Option 2

The nature of the [procedures and mechanisms relating to compliance] [compliance system] should not be expressly provided for in the operative text, as its nature will be implicit from the content of the text. Alternatively, its nature could be reflected in the preamble or in a decision accompanying the adoption of the [procedures and mechanisms relating to compliance] [compliance system].

Principles

Option 1

The operation of the [procedures and mechanisms relating to compliance] [compliance system] shall [be guided by] [be based on] the [principles set out in Article 3 of the Convention] [and the recognized principles under international law] [and in particular shall]:

- [2. Adhere to the principle of common but differentiated responsibilities as defined in the Convention;]
- [3. Treat all Parties that have undertaken the same commitments in an equivalent manner;]

[4. Be based on principles of efficiency and due process allowing Parties, and in particular the Party concerned, an opportunity for a full, fair and timely [consideration and] resolution of compliance-relating issues; [, including the presumption that a Party has complied with its commitments unless non-compliance is established;]]

[5. Preserve sovereign rights of Parties;]

[6. Provide for reasonable certainty; prevention of non-compliance; importance of domestic compliance and enforcement; creating appropriate incentives to comply; restoration to the environment of excess tonnes; automaticity; and transparency.]

Option 2

Principles governing the operation of the [procedures and mechanisms relating to compliance] [compliance system] should not be expressly provided for in the text, as they are contained in the Convention and the Protocol and could be implicit from the content of the text, or be reflected in the preamble or in a decision accompanying the adoption of the [procedures and mechanisms relating to compliance] [compliance system].

The Party concerned shall submit a progress report on the implementation of the compliance action plan to the [Compliance [. . .]] [branch 2] [panel] annually no later than 15 April. Option 2

The compliance fund shall be administered [nationally] [or] [internationally].

The fund shall disburse its income and any interest it earns to reduce anthropogenic emissions of greenhouse gases. The emissions reductions achieved shall not contribute to any Party's compliance with its quantified emission limitation or reduction commitments.]

[(g) *Financial penalty*]

[(h) *Suspension of rights and privileges*]

[(i) *Application of Article 4.5 and 4.6*]

[If one or more Parties operating under Article 4 are found not to be in compliance with Articles 5 and 7, each Party to an agreement under Article 4 shall be responsible for its own level of emissions set out in the agreement.

In accordance with Article 4.6 of the Protocol, any non-compliance consequences under this paragraph shall apply to both the regional economic integration organization and any Party that has exceeded its level of emissions as notified in accordance with Article 4.

Annex

MULTILATERAL CONSULTATIVE PROCESS¹⁰

TERMS OF REFERENCE

Establishment

1. Pursuant to Article 13 of the United Nations Framework Convention on Climate Change, the Conference of the Parties hereby establishes a multilateral consultative process ("the process") in the form of a set of procedures to be served by a standing Multilateral Consultative Committee ("the Committee").

Objective

2. The objective of the process is to resolve questions regarding the implementation of the Convention, by:

- (a) Providing advice on assistance to Parties to overcome difficulties encountered in their implementation of the Convention;
- (b) Promoting understanding of the Convention;
- (c) Preventing disputes from arising.

Nature

3. The process shall be conducted in a facilitative, cooperative, non-confrontational, transparent and timely manner, and be non-judicial. Parties concerned shall be entitled to participate fully in the process.

4. The process shall be separate from, and without prejudice to, the provisions of Article 14 of the Convention (Settlement of Disputes).

How issues would be taken up

5. Questions regarding the implementation of the Convention may be raised, with supporting information, by:

- (a) A Party with respect to its own implementation;
- (b) A group of Parties with respect to their own implementation;

¹⁰ FCCC/CP/1998/16/Add.1.

- (c) A Party or a group of Parties with respect to the implementation by another Party or group of Parties;
- (d) The Conference of the Parties.

Mandate of the Committee

6. The Committee shall, upon a request received in accordance with paragraph 5, consider questions regarding the implementation of the Convention in consultation with the Party or Parties concerned and, in light of the nature of the question, provide the appropriate assistance in relation to difficulties encountered in the course of implementation, by:

- (a) Clarifying and resolving questions;
- (b) Providing advice and recommendations on the procurement of technical and financial resources for the resolution of these difficulties;
- (c) Providing advice on the compilation and communication of information.

7. The Committee shall not duplicate activities performed by other Convention bodies.

Constitution

8. The Committee shall consist of [10] [15] [25] members. It shall be composed of persons nominated by Parties who are experts in relevant fields, such as those of science, socio-economics and the environment. The Committee may draw upon such outside expertise as it deems necessary.

9. [The members of the Committee shall be designated by the Conference of the Parties for three years, based on equitable geographical distribution¹¹ and the principle of rotation [with one half to be designated by Annex I-Parties and one half to be designated by non-Annex I Parties]¹². Outgoing members may be re-appointed for one immediate consecutive term. The Chairmen of the subsidiary bodies of the Convention may participate in the meetings of the Committee as observers.]

¹¹ The G77 and China stated that they uphold the principle of “equitable geographical distribution” which is a well-established practice within the United Nations and strongly objected to the placement of the phrase “equitable geographical distribution” in square brackets by some Parties.

¹² Some Parties stated that the phrase “equitable geographical distribution” was not acceptable and that the following language should be inserted after the word “rotation”: with one half to be designated by Annex I Parties and one half to be designated by non-Annex I Parties. These Parties also noted their view that “equitable geographical distribution” was not a well-established practice and was not applicable in this context.

Deliberations

10. The Committee shall meet at least once a year. Meetings of the Committee shall, whenever practicable, take place in conjunction with sessions of the Conference of the Parties or its subsidiary bodies.

11. The Committee shall report to each ordinary session of the Conference of the Parties on all aspects of its work, with a view to the Conference of the Parties taking whatever decisions it considers necessary.

Outcome

12. The conclusions and any recommendations of the Committee shall be sent to the Party or Parties concerned for its, or their, consideration. Such conclusions and recommendations shall be consistent with the mandate as described in paragraph 6 above. They may include:

(a) Recommendations regarding co-operation between the Party or Parties concerned and other Parties to further the objective of the Convention; and

(b) Measures that the Committee deems suitable to be taken by the Party or Parties concerned for the effective implementation of the Convention.

13. The Party or Parties concerned shall be given the opportunity to comment on the conclusions and recommendations. The Committee shall, in addition, forward its conclusions and recommendations and any written comments of the Party or Parties concerned to the Conference of the Parties in due time before its ordinary sessions.

Evolution

14. These terms of reference may be amended by the Conference of the Parties to take account of any amendment to the Convention, decisions of the Conference of the Parties or experience gained with the working of the process.
