## I. INTRODUCTION

### A. Mandate

1. The Subsidiary Body for Implementation (SBI) considered the programme budget for the biennium 2002-2003 (FCCC/SBI/2001/4 and Add.1) proposed by the Executive Secretary at its fourteenth session, and decided to recommend that the total amount of the programme budget to be adopted by the Conference of the Parties (COP) at its seventh session be set at US\$ 32,837,100.

2. The SBI also requested the Executive Secretary to propose a revised programme budget including a revised staffing table, on the basis of the recommended amount, taking into account, *inter alia*, the budgetary implications of the decisions adopted by the COP at its sixth session, for consideration by the SBI at its fifteenth session (see FCCC/SBI/2001/9, paras. 37-41).

### B. Scope

3. As detailed explanations on the proposed programme budget were provided to the SBI at its fourteenth session in document FCCC/SBI/2001/4, the contents of this document are limited to the adjustments made on the basis of the recommended programme budget. The initial work programme, which was contained in document FCCC/SBI/2001/4/Add.1, has been revised, as requested by the SBI at its fourteenth session, and is presented in document FCCC/SBI/2001/17/Add.1. Estimated resource requirements for the Trust Fund for Supplementary Activities are presented in document FCCC/SBI/2001/17/Add.2.

4. The draft decision to be considered by the SBI at its fifteenth session and submitted to COP 7 for adoption is contained in this document, together with the following tables:

(a) Table 1 contains appropriations of the proposed expenditures at programme level, programme support costs and a working capital reserve. It also shows the expected income from three sources, namely, the special contribution by the host Government, unspent balances from previous financial periods and indicative contributions by all Parties to the Convention;

(b) The number of proposed posts are shown in table 2, by category and level for Professional posts and above, together with a total figure for all General Service posts;

(c) Both tables 1 and 2 incorporate the resources and staff required from the core budget for the "prompt start" of the clean development mechanism (CDM), on the assumption that this contingency will be approved by the COP. Tables 3 and 4 indicate the resource and staffing requirements for this contingency;

(d) Tables 5 and 6 reflect the resource and staffing requirements for the conference services contingency;

(e) The estimated requirements for the Trust Fund for Participation in the UNFCCC Process are presented in table 7;

(f) A table with the indicative scale of contributions for 2002-2003 is provided in an annex to the draft decision. The indicative contributions are calculated in accordance with the financial regulations of the Convention (FCCC/CP/1995/7/Add.1, decision 15/CP.1, annex 1, para. 7 (a)) which were revised by COP 4 to read as follows: "Contributions made each year by Parties on the basis of the indicative scale adopted by the Conference of the Parties, and based on such scale of assessment of the United Nations as may be adopted from time to time by the General Assembly."

### **C. Action by the SBI**

5. The SBI is invited to consider the revised programme budget together with the draft decision and annex contained in this note as well as the revised programme of work and estimated resource requirements for the Trust Fund for Supplementary Activities provided in addenda to this note (FCCC/SBI/2001/17/Add.1 and Add.2 respectively), and recommend a draft decision on the programme budget for the biennium 2002-2003 for adoption by the COP at its seventh session.

## **II. REVISED PROGRAMME BUDGET**

### **A. Adjustment to the proposed budget**

6. As a result of deliberations at the fourteenth session of the SBI, the programme budget for 2002-2003 has been reduced from the proposed amount of US\$ 34.4 million to US\$ 32.8 million (a reduction of 4.7 per cent). This is achieved by reducing the number of posts and by adjusting expenditures related to travel of experts and secretariat-wide operating costs.

7. There has been an adjustment to the level of one post in the Implementation programme. A P-5 subprogramme manager post has been upgraded to a D-1 in order to act also as the Deputy Coordinator of that programme. The newly appointed Executive Secretary will decide in which subprogramme to place this post.

### **B. Contingencies**

8. The "prompt start" of the CDM is considered in this note as a contingency. Core budget resource requirements related to that contingency, which amount to US\$ 535,000 for the biennium, are included in table 1 and shown separately in table 3. Similarly, staff requirements for that contingency are shown in parenthesis in table 2 and separately in table 4. The remaining costs for the CDM "prompt start" would be sought from the Trust Fund for Supplementary Activities. Should the COP not approve that contingency, the resources and staff requirements would be taken out of tables 1 and 2.

9. The previous contingency on technology transfer has been incorporated into the core budget, while that related to additional work on greenhouse gas (GHG) inventories and land use and land-use change and forestry (LULUCF) is expected to be funded from the Trust Fund for Supplementary Activities.

10. Following the practice of prior financial periods, the conference services contingency will remain as such until a decision is made by the General Assembly whether or not to provide

resources for these activities in the United Nations regular budget for the same biennium. (See paragraphs 6 and 7 of the draft decision below.)

### **C. Income**

11. Following the recommendation of the SBI, US\$ 5,000,000 will be drawn from available balances carried over from the current and previous financial periods, and US\$ 1.3 million (or DM 3 million) is expected from the host Government as a special contribution. As a result, the indicative contributions by Parties for the biennium amount to US\$ 26.5 million. (See attached annex for percentage of indicative contributions of all Parties.)

### **Draft decision XX/CP.7**

#### **Programme budget for the biennium 2002-2003**

*The Conference of the Parties,*

*Recalling* paragraph 4 of the financial procedures for the Conference of the Parties to the United Nations Framework Convention on Climate Change,<sup>1</sup>

*Having considered* the proposed budget for the biennium 2002-2003 submitted by the Executive Secretary,<sup>2</sup>

1. *Approves* the programme budget for the biennium 2002-2003, amounting to US\$ 32,837,100 for the purposes specified in table 1 below;
2. *Notes with appreciation* the annual contribution of the host Government of DM 1.5 million, which offsets planned expenditures;
3. *Approves* a drawing of US\$ 5 million from the unspent balances or contributions (carry-over) from previous financial periods to cover part of the 2002-2003 budget;
4. *Adopts* the indicative scale of contributions for 2002 and 2003 contained in the annex to this decision;
5. *Approves* the staffing table for the programme budget, as contained in table 2 below;
6. *Approves* a contingency budget for conference servicing, amounting to US\$5,661,800, to be added to the programme budget for the coming biennium in the event that the General Assembly of the United Nations decides not to provide resources for these activities in the United Nations regular budget for the biennium 2002-2003 (see tables 5 and 6 below);

---

<sup>1</sup> See decision 15/CP.1, annex I (FCCC/CP/1995/7/Add.1).

<sup>2</sup> See FCCC/SBI/2001/4 and Add.1 and FCCC/SBI/2001/9.

7. *Invites* the United Nations General Assembly to decide at its fifty-sixth session on the issue of meeting the conference servicing expenses of the Convention from its regular budget;

8. *Requests* the Executive Secretary to report to the Subsidiary Body for Implementation on the implementation of paragraph 6 above, as necessary;

9. *Authorizes* the Executive Secretary to make transfers between each of the main appropriation lines set out in table 1 below, up to an aggregate limit of 15 per cent of the total estimated expenditure for those appropriation lines, provided that a further limitation of up to minus 25 per cent of each such appropriation line shall apply;

10. *Decides* to maintain the level of the working capital reserve at 8.3 per cent of the estimated expenditure;

11. *Invites* all Parties to the Convention to note that contributions to the core budget are due on 1 January of each year in accordance with paragraph 8 (b) of the financial procedures and to pay promptly and in full, for each of the years 2002 and 2003, the contributions required to finance expenditures approved under paragraph 1 above, as offset by the contributions noted in paragraph 2 and a drawing approved in paragraph 3 above, and any contributions required to finance the expenditures arising from the decisions referred to in paragraph 6 above;

12. *Takes note* of the funding estimates for the Trust Fund for Participation in the UNFCCC Process specified by the Executive Secretary (US\$ 3,356,200 for the biennium 2002-2003), and invites Parties to make contributions to this fund (see table 7 below);

13. *Takes note* of the funding estimates for the Trust Fund for Supplementary Activities under the United Nations Framework Convention on Climate Change specified by the Executive Secretary (US\$ ..... for the biennium 2002-2003), and invites Parties to make contributions to this fund;

14. *Requests* the Executive Secretary to report to the Conference of the Parties at its eighth session on income and budget performance and to propose any adjustments that might be needed in the Convention budget for the biennium 2002-2003.
