

**The 4th Asian Conference on Meteorology (ACM) 2024**  
jointly organized with  
**The 3rd Workshop on the A3 Foresight Program**

**- Plenary Sessions -**

**Nov 18 (Day 1) ACM Plenary** (Chair: Masahiro Watanabe, IOC and LOC co-chair)

**Welcome speech (9:00-9:10)**

- Prof. Tetsuya Takemi (*President of the Meteorological Society of Japan*)

**Logistic information (9:10-9:15)**

**ACM Plenary Talks (9:15-10:15)**

- Prof. Yukari Takayabu (*Meteorological Society of Japan*)
  - Precipitation characteristics and Environments: Heavy Rainfalls observed from TRMM & GPM
- Prof. Kyung-Ja Ha (*Korean Meteorological Society*)
  - Dynamics and characteristics of climatic extremes over East Asia
- Prof. Huijun Wang (*Chinese Meteorological Society*)
  - Traditional Meiyu has been suspended by global warming

**Reception (18:00-20:00)** (Chair: Toshihiko Takemura, IOC)

**Welcome speech**

- Prof. Seon-Ki Park (*President of the Korean Meteorological Society*)

**Nov 19 (Day 2) A3 Foresight Plenary** (Chair: Yukiko Imada, LOC co-chair)

**A3 Foresight Plenary Talks (9:15-10:15)**

- Prof. Naiming Yuan (*Sun Yat-sen University*)
  - On the complexity of climate system: From complexity science to climate research applications
- Prof. Soon-Il An (*Yonsei University*)
  - Hysteresis of Earth climate system under increasing and decreasing greenhouse gases
- Prof. Hisashi Nakamura (*University of Tokyo*)
  - A record-setting heatwave over Japan in 2023: Contribution of teleconnections and an unprecedented marine heatwave

**Nov 20 (Day 3) Closing (12:00-12:30)**

**Closing speech**

- Prof. Huijun Wang (*Ex-President of the Chinese Meteorological Society*)
