

Climate Dynamics II

Report subject

Choose one of the following topics introduced in the class, and review and discuss a specific issue related to the topic. Summarize with more than 5 pages in A4 format, including figures and equations. Write name, student no., and the theme you specified at the top of your report, and attach reference list at the bottom.

<Topics>

- Storm track dynamics
- Atmospheric low-frequency variability
- ENSO teleconnection
- Extratropical air-sea interaction
- Decadal climate variability

Due date

22 February, 2010 5PM

* 9 February, 2010, 5PM, for those who are scheduled to graduate in March.

Submission

Send your report (pdf is preferable) via e-mail to Prof. Masahiro Watanabe (hiro@ccsr.u-tokyo.ac.jp). The subject of the e-mail should be "Climate dynamics report".
